## **DETAILED ACTION**

### ***Allowable Subject Matter***

1. Claims 45-54 are allowed.
2. The following is an examiner's statement of reasons for allowance: The prior art of record does not teach or fairly suggest, either singularly or in combination, at least the limitation "one or more of the at least one dielectric layer comprised of latex has a top surface that contains peaks and valleys of a size that would not occur on the top surface of the latex had it not been roughened, and one or more of the conductive layers is formed of a first conductive metal that substantially fills the valleys formed in the portion of the latex layer's top surface over which the conductive layer's metal has been patterned, so as to increase the ability of the metal to adhere to the latex surface".

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

### ***Conclusion***

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Quang D Vu whose telephone number is 571-272-1667. The examiner can normally be reached on Monday-Friday.
